Dr. Pepper arrived at Washington shortly before 3 o clock. Sheridan was seen by him and said: "I intend to get well sil the same, doctor." All the physicians were in attendance and the consultation lasted till 5 minutes to 6, when Dr. Pepper returned to Philadelphia. The following bulletin was then issued: "6 A. M.—At this hour Gen. Sheridan is resing quietly, with a pulse of fair rolume, 112 to the misuit, respiration 32, temperature normal, Hisphimonary trouble is progressing favorably. The congested condition which supervened thirty-six hours ago, was followed by considerable hemorrhage from the stomach and howels yesterday at 2 P. M. The shock of this was almost fatal, as it immediately developed a return of the grave heart failure. The most powerful responstives were required to scoure reaction. Since this was accomplished, no fresh krouble has appeared. The pateent has rallied, as promptly as could be expected considering the organic disease present. An improvement.

Since the last bulletin, Sheridan's pulse has averaged 105, and its quality is good. His breathing is generally regular. The cough is not tropublesome; and there is no difficulty in expectogation. For the time being there is a manifest improvement in the general's condition. THE GENERAL CALLS FOR NEWS.

No MATERIAL CHANGE.

Midnight—General Sheridan's condition has not clange materially since the last report. His respiration continues regular, and his pulse is good in quality, ranging from 105 to 108 to the mirrate. His sleep during the entire swening has been restful, and he has only awakened at regular intervals to lake his neutrishment.

PRILABILITATION JUNE 5.—Dr. Pepper, who returned from consultation with Sheridan's physician to-day, said the hemorrhage of yesterday and the resultant diock, were very severe, and death would have resultest were it not for the very vigorous measures adopted by the physicians. It is impagaible to assert that there may not be a recurrence of the hemorrhage, and such event, or the return of severe heart failure, would place the general's life in urgent danger. On he other hand, there are several invorable features about the present conditions of the case, Gen. Sheridan's courage DR. PEPPER'S OPERIOR.

Republicans in the House Grow with Great Glee Giver the Victory.

Washington, June 5.—The house went into committee of the whole on the tariffull. The debate on the pending clause (wood manufactured, not specially enumeristed or otherwise provided) was limited to thirty minutes. Springer took the chair.

A reporter in the gallery waved a large red handkerchief, and instantly there was an outburst of applains on the democratic side. Grosvenor called the chair's attention to the red handkerchief, which, he said, had been mistaken by the democrats as a bandana from Onegon. This sally, and Mr. Parker's statement that the democrats would better use the handkerchief for the purpose originally intended, turned the hughter on the other side.

Parker, of New York addressed the house.

tarifibil. He was followed in opposition by Reed, of Maine, while the bill was detended by Cox, of New York, and Hynnin, of Indiana.

Upon the expiration of the debate, Bayne's motion to strike out the paragraph was rejected, and this next paragraph? "sawed boards, planks, deals and other articles of sawed timber," was considered. Moffett of New York, floward of Indiana, and Kelly of Pennsylvania, renewed the attack on the lumber schedules.

Hermann of Oregon, presented to the democracy the compliments of Oregon, and a message from her people saying: Oregon had voted for protection by 3000 majority. Applance!

Moffett moved to strike out the paragraph. The motion was rejected, so the clerk turned over the first page of the bill, and read the next clause of the free list: Hubs for wheels, posts, last blocks, wagon blocks, our blocks, leading blocks, and all like blocks or sticks, rough hewn; which Bayne moved to strike out. He said he had beard that the St. Louis platform would straddle the rariff question. He predicted that although the democratic banner would read "Cleveland and the Red Bandana" (fremondons applause, on the democratic side) the republicans in November, standing on a reform platform, would be victorious for the convention to the effect that Cleveland's name was received with a storm of applause, where upon the democratic members again broke into applause.

After turther debate the motion to strike out was rejected by a party vote.

St. Louis, June 5.—The demogratic national conventions began to gather in largely during the hours of the morating, although Cha rman Barmun will not announce the opening inthinodon. The stream of humanity which began to ran into the big Laponition building as early as 8 o'clock has grown to a torrent, which surges in and fills the great Exposition hall to overthowing. Long before noon 10,000 human faces gazed upon the high desk reserved for the presiding officers of the convention, as yet empty, but with its gleatning while silver gavel, the gift of the Cok radio delegation, and possessed of curious interest for the expectant mutitude.

The noble proportions of the laft strike all at once with admiration. It is oblong in chaps and flanked on either side by balconies reaching back about 200 feet, above which, stretching entirely accound the suditorium is a broad, overhanging gallery. The ample stage reaches from the irear of the chairman's platform fifty feet to the east wallof the hall, and accommodates 440 of the gathered leaders and fathers of the national denocracy. The stage is hung with red, white and blue bunding, relieved by festoons and borders of evergreen. Upon a pedestal on the right of the colber side are similar portraits of President Cleveland, and suspended on the face of the gallery above the stage is a large portrait of the president in oil. On the other side are similar portraits of Har cock, Cleveland, Tilden and ex-fovernor Marmaduke, of Missouri. A very striking effect is produced in the gallery above the stage by an enormous shaded drawing of the capitol at Washington upon a background of sky-bjue anwass. One of the main subjects of discussion this One of the main aphjects of discussion this morning before the iconvention must was the notion of New York delegates in through last night. A meeting was held at Tannan headquarters. The delegation was overwhelmingly for Thurman, but the Indiana people had shown themselves so thoroughly in earnest in their opposition to the Old Roman, or rather in their advocacy of Oray, that it placed New York in a delicate position. If the weight of its influence was thrown names to fray, his chances would be that it placed New York in a new was thrown against Gray, his chances would be slight, indeed, and in this way New York would to tonly secure the presidency, but dadde who should have the second place. Not caring to an agonize Gray's friends, the delegation finally concluded to leave the choice of vice president to the other states, and the following resolution was manimiously passed.

THE WAITING CROWD.

I As noon approaches, the vast midlence watches each new comer to catch a familiar face in the ante-chamber. Those in the hall who can read the rather dim Joseriptions beneath the portraits on the face of the east gallery railing, repent the ep grams to their neighbors, who pass these on, and soon the curiosity of the entire andience is satisfied.

Closely following upon Scott's heels entered Henry Waterson, of the Courier-Journal, with his cont tail pockets bulged out conspicuously, suggesting mannscript copy of the platforn which it is said he is preparing. He stopped to say a word in Scott's car, and passed quietly to a seat.

At noon all delegates had arrived at convention hall, except those from New York and 'Missourt. The absence of the New York delegation made a large gap in the center of the space reserved. The convention waited with mingled feeling of curiosity and impatience for the appearance of the Empire state's representatives.

It was fifteen minutes before, they came into the convention, headed by ex-Mayor Grace of New York city. Showalter of Missouri rose to a point of order saying the assemblage did not know mult the report of the committee of cruden inits, who composed the convention. Chairman—The point of order is not say tained, for this rhason. We meet here as a deliberative body and I suppose, for personal purposes, we can adopt any rules that we wish. These rules would not obtain, of course, if they were not adopted by the convention after the report of the committee on credentials. I will say however that I don't see that they can be made applicable at this time, since the subject matter to which they are directed will not come before this body until that time. I suggest, governor that although I think the resolution is in order it might be well to let if stand over.

d acquinting for a result that whitemes and democrats alike. This general cause can be none other than be tacin question. The vote of Oregon is a probled against the teriff policy of the ad-graphitration. Our people will bet have free trade. It, is useless to argue whether free tradella theoretically right or no Our peo-

WIL not have it.
They who watched the voting closely throughout the day became convinced that Minorighout the day income consinced that the work whose result now so surprises men one both parties was done largely by the working people of the state. In Portland this was a very conspicuous fact. Men came from: shops, foundaries, mills, and employments of all descriptions, and went straight polls with republican ballets. In the rune districts, and particularly at the wool-proving parts of the state, the inne thing was viscoved. Two facts were before the n eds of the people: First, that the tariff nd that the pressure of foreign c dom upon the labor and products of our ow

tey was not destroit. country was not destroi.

Not less was it apparent that the men who represent the capital and increatile interest of the state were mainly ugainst the administration who do not consider the control of the control of the state were mainly ugainst the administration. that on's free thads policy. They do not with the cheap labor and about and a refer to the cheap labor and about and a refer to the world. They are convinced that without intotection this abundance. Antend that without and capital would meet their severy point. Essays in favor of free trade, however finely written orations lo favor of free trade, lowers well delivered composition our working one of our machines of the opioion. The lower hold that in the creates demonstration is worth an yening against practical fucts.

District numbers who, through partisan feeling end ellegiance to parky, ryted demo-drikle, agree on this subject, with thisse who addition to the real party of the re-drikle agree on this subject, with thisse who addition to the real party of the re-drikle state of the real party of the re-ministration could be submitted to the peo-He of Oregon on its own mer is, so the yould regard it as necessary to support sloy in order to support their party, the vote for it would hardly count as a post

Myseggantliy. frighton strong, probability, that in hing presidential election the protest mailing the tariff policy of the administration vill or sep the country? The St. Louis con-cention may try to make a platform that will dodge or straddle it, but the previ leat's message and the Mills bill have presented the billion in too plain a minner to purpose the party to escape it.

#### A LODGE OF SORROW.

The Oregon delegation to the nationa denigoratic convention at St. Louis were very happy on Bunday. Mr. Tony Noltner war a particularly happy warner in the ne dell'arolection for her lum o her wool dim she did for her wheat Mr. Poliner in this statesmanlike utterance builded better than he knew, for Obegon does we protection for her wheat, al bough Mr. appears to be about as for to the arthe Trishman who, a few years ago, beat s Less mandereifully on the ground that vit will ye and the likes of yes the killed our bords and heyfour." To the defense that the grandlation took place more than 1800 years are his answer was returned. Tell Univer fil probably find out before he returns from Long that Oregon wheat is protected, and distinct will be, I never hear, of it wast engit." But we will not further dwy of the blunder, lest we seem to wish to gird Telliner in the grief that will pos-properly be soul and the solls of the fellow delegates when they bear that Oregon is republican by an increased This event will be regarded as Combiners' toruse the popular democratic diligit, of dissister in November, and the be-combined by the Maliner and his fellow dates tes to do will be to only off their wed-dary garments, this their flowers out of the window; cease to crown their cups with wine, and robing themselves, in soher black, Proceed to organize a "office of strict,"
The Oregon delegation to St. Louis ought to
write over their beadquarters "closed in
consequence of a destiting the family." The
coal effect of the democratic deleta is sure
to the repeated and reflected by the mood of the Oregon delegation at St. Louis. Here has some weeks to come we may expect that The the stimple rooms the lights will barn blue;

But it will be a season of deeper, though we first not londer grief, to Gregon at St. Louis. The detegation ought to march into londer price by Noltier, bearing a bough of Oregon fr, with a black crape attached on which is written the words. I we're a funeral; we ask the prayers of the congregation in our behalt," and then Nother ought to arise and sing the "Ora to "the "Miscare," and more that as a mark of respect for "the deceased" the convention wear the customary badge of

### IT WOULDN'T WORK.

That the Oregon election has resulted in a democrafic defoat ought not to surprise any market on political observer. The chromating was body managed in the start. The fortation of Irish, an old time copperdend of unsavory record, who dictated a continuous, for which on the stump he made it a limping disingentous defense, was a merious mistake; but even if this error had not been made defeat could not have been evided. Purty backs in congress can change front with comparative ense to please Cleveland, but they canno: carry the please Cleveland, but they canno; carry the receive with them. The comocratic farmers and workingmen of Oregon did not all find lifted to attend the convertion at Pendleton, but they found time to go to the polls and cast their found time to go to the polls and them to eat crow and call it qual; they found time to tell brother Irish that free wool, and profected sugar and protected woolen goods move angestive of a tariff whose "feet were not, mates." The fate of the demogratic ficket receils Mr. Lincoln's famous saving. note. "The fate of the demogratic flight recalls Mr. Lincoln's famous saying: "You can fool some of the people all the time; and you can fool all the people all the time; but onnot fool all the people all the time?" Tom Reed, of Maine, wittily described the demogracy as "trying to get the maximum of feathers out of the goose for the windown of southing. You don't the maximum of feathers out of the goose for the minimum of squading. You don't means to take teathers out of the American goose and deny him the poor privilege of moise. No, it our proud bird cught to surgender feathers he is pluckly grough to surgender fixed an eagle, and that is a tax alone where we have been transport for the contract of the co he have right to see just what feather go."
The Origon farmer did not propose to lose all his feathers without squaling in protest, and the Cleveland democracy will have to go writing of this sante for "Tree geese feathers."

The third party profitation tote is quite than it is made. In many places it is smaller than it is made to be in much fine. The fruit crop generally will be in much fine condition and increase in giold and quality. It is made increase in giold and quality. It is made increase in giold and quality. It is made in short for show there is of prohibition in a made increase in giold and their till are in the party of show the prohibition in the first of the party of the part

degrades tos cause, makes fi ridionious, tiresome and oppressive, identifies only shallow people with it, and in general turns it into contempt. It becomes the between those who have no other way of Lepting themselves before this public, and am I down into elves before the public, and ain t down into noisy little nuisance like Tie Salvation Army.

#### FACTS WORTH KNOWING.

There are millions of people living in the Northwestern states who drag out hardworking lives with little pleasure and less profit where summers are short and torrid profit where summers are snow; and under and winters are long and fright; who labor half the year to keep fed and keep warm the other half! who actually cut wild grass to burn for feel and are in danger of freezing to death while their stock actually do freeze in close bards. Blizzards come to them with territle eighence, and storing rage for days and mostle growth growt and weeks, sweeping away homes and devastating the country. To them thoods come mawares and drouths linger to destroy hopes; grashoppers and other insect posts ruin crops that escape climatic cyils, and yet they do live and sometimes they prosper

Those millions bear of the Pacific coast, they read of its delightful climate, its never-tailing harvests, its delicious fruits, its tenperate winters and agreeable summers, and consider it "a tale that is told." They cannot believe that earth contains homes so free from storms and vic setudes and people who occupy a land so near the original idea of Eden. Those who live in Minnesota and Dakota cannot believe, on ordinary hearsay, that Oregon is so blessed and that life can be sustained with such pleasant labors. The Oregonian, on the contrary, seems to have as little conception of his blessings as the Minnesotan has of his disadvantages. The farmer here enjoys immunity from tempests, plagues, throuths, and many evils of pests; plagues, drouths, and many evils of climate and conditions that oppress other states, without appreciating his advantages, and certainty, often without improving them. He is, seeing must successful in a financial way than the Dahotan, and with the greatest blessings mature can bestow, does not atways hold his own, and thousands do no more than that. He has cheaplumber, fuel and food; all his supplies are at a ber fuel and food; all his supplies are at a reasonable price; his products are near the world's markets, because near the ocean, and his situation in every sense double-discounts whatever advantages the Western

nun enjoys.

Demagogues who preach discontent to this favored people tell the furmer herdoes not make 4 per cent. on his investment. He is appealed to to free himself, from the middle-man and corporations, and instigated to "go it alone" in some fashion. Let him be free as possible from all oppression and recollect that "who would he free bimself must strike the blow." And while he is successing up his oppressors, perhaps it will be well to exam-No. 1.2 and discover the claims on that individual and find if they are all discharged. This is certainly a favored land where industry and perseverance reach success by short cuts; where tien of energy and enterprise can succeed if success is possible anywhere. Then why is it that farms are mortgaged and farmers in debt and so many fail

There is no use in hesitating to tell the truth or to investigate conditions or draw conclusions. If success is possible in reeonemissions. It success is possible in re-gions where people struggle for it against so many adverse circumstances, why is it not more general in a country so invored as Oregon? If agricultural societies and fur-mers clubs and grangers would give this oregon? It agrounds sometimes that and grantgers would give this matter the close a tention it deserves, it is possible they would discover some discrepancy between farmers here and elsewhere, not altogether creditable to the citizens of the Pacific. It is possible that the adthe Pacific. It is possible that the advantages of this fine region are not improved as they can and should be; that our people, not being forced to constant water and solicitude, and unerding and exacting else can hinder prosperity and streess

The early history of this coast had features from the that pertook of the fabilious The discourt of gold demoralized the wold, and the abundance of money created u hot bed of extravagance that lasted longer than The habits then encouraged and established remained when the gold was and established roundined when the gold was gone, and the store bill replaced the placer. Debt came in consequence of habits of lux-ury, incompatible with the social conditions that followed, and the practice of incurring debt, lifed easly, caused the mortgage. There-were early years when prices of products were so high that, store bills were not met, but that time of high prices for products did not endure, though the habit of the store ac-count did.

Much of this was in the past, and is not in the present, though its consequences yet ap-pear. Such conditions naturally led to in-frinces and distike for inbor, and the coase-quence is found in the public records in their idences di debt.

## LOADED WITH CLEVELAND.

The democratic national convention that met at Chicago July 8, 1884, was an event of considerable interest, as its outcome was un certain, but the democratic national convention that organized yesterday at St. Louis is sure to be a very doll, stupid meeting. Cleveland is sure-to be refrominated, simply because the party cannot help it. The desink them they cannot swim without him, and they cannot unsent him without confessing judgment against their capacity to govern the nation to the satisfaction, of the people, The record of the administration is made up, and to red be a renomination to Cleveland is to impear, that record. The party dannot afford to this, so they are compelled to afford to this, so they are compelled to ford the them with a heavy, clumby rider, trusting agood luck rather than to shifful horsemanship to gain the other bank in safety. The chances are many that the rider will miss the ford and drown both himrider will miss the ford and drown nous misself and his steed, but theveland will not voluntarily dismount, and he cannot be made to get down without a struggle that would be too violent for party safety. The would be too violent for party safety. The contest for the second place on the ticket is fraught with danger to the party, which is necessary to victory. The nonlination of Thurman will slienate the Gray faction in Indiana, and the nomination of Gray is sure to displease the McDonald fuction in the same state. At this distance it looks as if Indiana would be lost to the democracy po matter who is nominated for vice president.
The character of the convention may be gathered from the fact that so yulgar and course grained a copperhead as I'an Yoor-

#### hees, is gree ed with enthusiastic applause. THE RECENT BAINS.

It is not often that Oregon is favored early It is not often that Oregon is favored early in June with so plentiful a rainfall as was precipitated on our section at that time. It came in excellent season to make the hay crop abundant and good, to bring forward all spring crops of whatever, kind, and to cause all garden stuff to turn out well. Fall sown grain will fill out and pastures will revive and seem like early in April. The ground will fill with water again and navi-gation on the Willamette continue late in July. About the only product that suffered from the rain was strawberries, which in some places were washed out of all flavor and nearly annihilated in a material sense. Raspberries and blackberries will retur

year. One remedy for this is to run the col year. One fettienty-flor this 1840 run the cuitivator all summer, but this rain has saved
much team work. In many places observation shows that cherries grew one-half
larger in size from Saturday until Monday.
The increase was perceptible and plain on
fruit just ripening and no doubt was equally
great on all fruits. Western Oregon and
Washington have a reagnificent prespect for like Elysian fields, will this season be like Elysian fields, while California and some parts of the country east of us are purched and burned and ruined by drouth past all hope of renewal.

#### A SWEET CORPER.

The condition of the democracy the day after defeat cannot be described as "grand it is rather "gloomy and peculiar." It was our nelunchely duty once to attend the "wake" of a sturdy son of toil, whose friends had laid him out in a gorgeous velvet dressing gown, the base of which included all the colors of the rainbow. The hands of the corpse were encased in white cotton gloves that were too long for the short fingers of the dear departed, and a bunch of artificial flowers shed a fictitious bloom upon his manly breast. The wild barbaric splendor of these funeral robes might have moved a fastidious person to smiles, but upon, the friends of the deceased no such effect was produced. On the contrary, they all testified their admira-tion and unanimously pronounced it "a

sweet corpse. The Oregon democracy, as it lies prostrate, larding the plain, is emphatically "a sweet corpse." Its uniform is about as brilliantly sensational and hizarro as that of an Indian warrior who returns from Washington clad in various odds and snds of civ-ilized clothing. Around, its manly chest is a gorgeous vest bearing the legend, "free wool." In its hand of ice it still grasps its quarterstoff, marked "protected sugar cane;" on its heavily timbered head it wears a cloven helmet marked "free lumber," while its nether limbs are cased in armor marked "protected woden goods." This is the "outfit that was worn by the democracy during the sampaign, and to-day if the sorrowing friends of the deceased bury him as he felt, with his vacious martial cloaks around him, they can exclaim as they view his extraordinary arms

and uniform, "a swaet corpse."

A secet corpse, surely, since in life it swang its sword violently for the South and swing its sword violently for the South and profected sugar; a sweet corpse that would be alive to-day and well and doing well if it had not choked to death trying to swallow "free-wool," heavily sprinkled with protect-

Close its cycs: its work is done What to it is friend or foeman; Buying votes or peddling rum, Democratic man or woman; Lay it low: lay it low: pued in mud from top to toe Mud it flung at bigh and fid the lears of "Rotten Row" Lay it low; lay it low.

#### TOO MANY REPUBLICANS.

The republican majority, on member of congress and justice of the supreme court will probably exceed 4000. It is much the largest majority ever cast in the state, save in 1872, when the democrats of Oregon rethe state, by their default, went for Grant In both houses of our legislature there are

ninely members. Of these, according to re-ports so far received, at least sixty-six will be republicany. Indeed, we hardly see how the democrats can count up twenty-four.

the democrate can count up twenty-four.

It is not a good thing for the state that any party should have so great a preponderance in the legislature, nor is it a good thing for any party to have it. Divided reaponsibility in legislative matters always produces the best results. In these circumstances parties compate with each other, each seeking favor for itself through efforts to promote the public welfare. In our particulations. the public welfare. In our next legislature, however, the democrats will be too weak to feel any greyda lility, and hence will make little opposition, or take little trouble to compel their opponents to scrubing measures or revisa their oppoions. This is not could

Now, to speak seriously, did it pay the democratic party of Oregon to welcome the emissaries of the administration, who came to the state to induce them to reverse the to the state to induce them to reverse the position on the tariff, set forth in their plat- formof two years ago? Did it pay them to "go back on themselves" as they did, out of partisan loyalty to the administration, and with total discussed of the with total disregard of the interests of the state? There has been a great cry in Ore-gon, but there will be no free wool. Not another mention will there ever be in Oregon of "the admirable message of President Cleveland on the tariff question," or of "that splendid mensure of reform, the Mults tariff bill." These things will go into the demo-cratic garree, Mong with the old rubbish of rejected plutform material that has been acculating there during the last thirty years.

Year by year there is a steady and beavy gain in the population of the state. This is porcert in the vote that at successive gene ral elections. In June, 1886, the total vote was 54 954. It will now exceed 60,000. Multinomah county alone increases her vote about 1500 metwo years. It is apparent that throughout the state the increasing vote is proportionately republican. In 1880 the total vote of Orogon was 40,816. The denses of that year made the population 174,768. The same ratio would indicate a present population of 254,600; but as the number of families, in proportion to votors, is steadily increasing, we judge the population of Oregon-may now he 275,000.

"Oregon's representatives at the St. Louis convention," is one of the phrases that comes in the new reports. Mr. Nother and his associates do not represent Oregon in that body. They represent only the office, holders. Oregon has repudiated everything that body is a North St. In his convention. that pertains to the S . Louis convention.

Neither the administration nor the whole number of its emissaries could pull free wool over the eyes of the people of Oregon.

Robert Lonnic before the Young Poople's flociety, at the Eaptist church last evening. The taxt was Burns's famous poem."A Man's a Man for That," and the speaker showed very condustively that to be a man in the truest sense meant more than to be simply 21 years of age, or to stynt in a broadcloth suit which belongs to some hailor, or to swing a came, or to puff cigar smoke in the face of others. An upright, honest, self-controlled, independent, pious young man, with, push, pinck and perseverance, was discussed as the made that the world needed. Many happy withcirnes and helpful suggestions were offered; and men made famous forcibly argued."

BURDETTE COMPTO.—Rollert J. Burdette, the famous humorist, will lecture at the Me-chanic's pavillon, Friday and Saturday evchanic's pavillon, Triday and Sadurday' evenings under the anspices of the Oregon Alpine Club. Mr. Burdette has become celebrated as the Burlington Howkeye man, and, for some time past has been traveling in California, lecturing now and then, but principally taking things casy. He is now on, Bis way home, and will be in the city several days. It is expected that he will arrive on the afternoon train from Eugene City tomorrow, and a public reception will be tendered him at the Alpine Club rooms, in the Portland Savings bank building in the evening. His sister, sister-in-law and son accompany him.

CONSIDERATION TO DRIVERS .- The drivers and conductors on the Washington street car line now have every third night off after car line now have every third bight off after 6 o'clack. They are much pleased with the agreeable change, which gives them a little time they can call their own. As one of them said yesterlay, "we now feel perfectly satisfied, and consider that we have been treated like white men. It is a great pleasure to have an evening to one's self, and we all feel very grateful to the company, who have done all that we could ask of them under the circumstances." The company will doubtless be rewarded for thus favoring their employes by still more cheerful and attentive service.

NORTH PACIFIC DAIRY ASSOCIATION.—The quarterly meeting of this association will be held in this city, at the council chamber, core held in this city, at the council chamber, corner Third and Washington street, on Friday
next at 11 o'clock A. M. 'A good patendance is carnestly desired, as matters of importance will come up for consideration.
The last manual exhibition of dairy products,
under the suspices of the society, though
quite interesting and instructive, was not us
large as the dairy men could easily have
made it, and it is to be hoped that if the society desires to hold an exhibition this fall,
that an exhibit will be made that will be a
credit to the dairy interest.

Most Stanmeners.—The late showery weather has renewed the strawberry crop to weather has renewed the strawberry crop to a considerable extent. Berries were quite pientiful yesterday, selling for from six to seven cents per pound. There is no prespect of them setting any desper, as the demand is great for shipping, but instead of the berries being at in end as was fedred a few days since, there is every likelihood that they will be in the market for two weeks yet. Rayberries are coming in and a few bright, bot days will render them pientiful.

The rain last week rather interfered with the work of putning the belief on the new Presbyforien church, but work is getting well under way.

Mr. J. F. Venner, a towner resident of this place, but now in Princytle, has lately sold his drug store there, and intends counting back to this city.

Calapoois lodge No. 23, I. O. C. F., of this city, has just elected the following officers: A. L. Kirk, N. G.; M. Fartey, V. G.; C. Foster, R. S.; W. R. Kirk, treasurer.

Mr. W. D. Washburn has returned home

from San Francisco, where he had been with his wife. Sho is to remain there for several weeks to be treated under a doctor, and at last accounts is improving.

Saturday an excursion took place over the narrow gauge railway, from Silverton to Co-burg, many of our citizens went along, and as the train came home the Silverton brass hand gave us some fine music.

During the past four days we have been favored with fine-rains, and grain in this section never looked better. Hops are looking very thrifty and his firit for a heavy crop, and gardens are growing niegly. While Eastern Oregon and California are parched and suffering for the blessed rain, we here in Western Oregon are having fine showers making a dithe bearts of our people, and as one of the farmers said last week, he falt as though it was maining twenty dollars pieces for him. The mines in the galent district on the McKeinsle are looking well, that not much work is being done how, exception the Templeton claim. They were cross-cutting when the writer left and did not know the width of their vein yet. More development work and less locating in this few mining district would help matters out greatly just now, for it is hard work to convince the Oregon prospector that one claim opened up in shape to show its value is worth a dozen unopened claims.

Nearly all the miners are home for the lection and the miners are home for the lection and the past week the claims are early all deserted. Last Friday Measus G. Dyson, J. W. Moore, J. H. Willson, W. Standish and William 'Hartley arrived home here from the Luchy Boy mine. Hard rock was encountered that 'broke 'several drills and retarded work greatly, but seams of quartz are found which contain fine gold, and much water is coming in the ince, which all indicate close proximity to the ledge. The tunnel is now in a distance of 129 feet and some ninety feet below the surface. A new tunnel was run through the ledge las. New standing nearly perpendicular and the ledge was found to be nearly twelve feet wide, standing nearly perpendicular and containing free gold by panning process.

the Sale. The order for the discharge of the receiver of the Dregon's California realpoids made by the United Mittee discrete court does not at once displace Executor Kochler from his His accounts must be examined position. His accounts must be examined and passed upon by the master as ordered by the court and it will probably be a month before this is done, and Mr. Koether will turn the roads over to the Oregon & Califor-nia Railroad Company, and his control and

responsibility as receiver be at an end.

The Oregon & California Railroad Company will then turn their roads over to the Southern Faoine Company in pursuance of an agreement negotiated between the bond-holders of the Oregon & California and the Southern Faoine Company, the terms of which, it has been ascertained, are substantially as follows:

tinlly as follows:

By article third the O. & C. bondholders, agreed the sell-re onegae with the Southern Fasilité Company to deliver to it the old bonds of the O. & C. and the agreement asse:

"The Southern Pacific Company in consideration detroids and in payment and exchange therefor, is to deliver to the bondholders' committees new bonds of the Oregon & California, Railmod Company, being at the rate of 190 per cent, new bonds of the oregon of Old Bonds exchanged as a foregaid carrying intenset at the rate of 5 per cent, per shutin from the first day of July, and guaranteed both principal and interest by the Southern Facific Company and secured as hercinates.

after stated.

This, it is understood, was done instruouth, and the Scuthern Pacific Company has since beek substituted as bondholders in the type-closure, roll, and the new modigage and bonds were recorded in the various counties of Gregon through which the O. & C. runs. The new bonds are issued at the rate of \$30,000 per mile of road and must not exceed \$20,000,000 in the aggregate.

FOR THE BOTEL. More People Apply to Change Their Subscrip-tions Than Can Be Waited On.

Yesterday 110 citizens whose names were on the hotel subsidy or on stock slips called at the First National bank and transferred their subscriptions in accordance with the request of the committee as published in gesterday's Obrgovian. Not one of them offered the slightest objection, but on the contrary were easer to make the change. At two or three times during the day the rush was so creat that several who dould not be waited on at once went away. In view of the expressed or implied will-

inguess of all to make the transfer as re-quested, the committee has decided to keep the stock book at the bank all day to-day. If all the subscribers will make it a call at the bank between 10 A. M. M. to-day (and not bee many just after the noon;hour), the whole matter can be closed up by to-morrow. Then the company will be organized and the work of building commenced at once. There is every reason for subscribers to make haste in concluding pre-limitaries, and not one reason for another day's delay.

Should the stage of water in the Columbia be favorable, the C. R. & N. Company's steamer D. S. Baker will be brought over two trapids at Tilmwater and down to The Dalles about the 15th of this month. The Columbia is constantly rising, and by that time it is thought the steamer can panke the run in safety. The main rapids at that point are not anoth more than 500 feet, and a high water, the face of the river is nearly level. The run is not considered half as perflous as that of shooting the rapids at the Cascades, when the water reaches a high stage. The D. S. Baker, will be brought to The Dalies and will bereafter ply on the riddle Columbia in connection with the Harvest Queen. Capt. Jas. W. Troup wall bring the stemper over the rapids.

THE REDUCTION WORKS. Very Successful Beason - Favorable Rates

Last night the Portland Reduction Works dast night the Portland Reduction Works made a shipment by the steamer for Sin-Francisco of 208,000 pounds of bullion. This bullion was moved in cars from the works in East Portland to the Oregon & Cristonia ferry slip, and from thence to the steamship lock by trucks. The Reduction Works have been running since May 8, and dur no that time two other shipments of forty tons have been made, and there is still a large quantity on hand, as the steamer could not take it all. The output has been from 12,000 to 15.
